I'm getting this error while trying to run my MVC4 project, it was working fine until last time on my other machines, but when I'm trying to run it from another. Visual Basic 6 (VB6) was one of the easiest programming languages to learn back in the day. It was released in 1998 and is now replaced by Visual Basic .NET (VB.NET). You can also use unchecked iterators instead of checked iterators, Isn't that what `_SECURE_SCL 0` does? Microsoft Visual C++ versions 8+ have checked iterators. Joshua1967
